Germans Claimed To

### BRIAND HOOTED IN DEPUTY CHAMBER

Germans Claimed To  
Have Made Fierce  
Attacks Saturday.

Berlin, May 24.—President Eberts  
in a proclamation issued today, an-  
nounced the government will punish  
severely any volunteer corps organ-  
ized for service in Upper Silesia.

**PREMIER BRIAND HOOTED**  
Paris, France, May 24.—Premier  
Briand was jeered and hooted in the  
Chamber of Deputies this morning  
when he declared Germany had  
shown good faith in acceding to the  
Allied demands. The scene in the  
chamber was the stormiest in his-  
tory. Briand's voice was drowned out  
by wave after wave of jeering.

Paris, May 25.—The Germans have  
promised to close the Silesian front-  
ier and to dissolve the Irregulars  
sent to combat the Polish invasion,  
according to advices here today. The  
promise was sent in response to the  
French ultimatum on the Silesian  
outbreak, and came with unpreced-  
ented speed. The French demand was  
only submitted to the German am-  
bassador here last night.

### RESOLUTION CALLS FOR OCCUPATION OF RUHR VALLEY

By Webb Miller  
United Press Correspondent  
Paris May 24.—A resolution, call-  
ing for immediate French occupa-  
tion of the Ruhr Valley, has been  
prepared for presentation to the  
Chamber of Deputies today. Deputy  
Galli announced he would present  
the resolution as a penalty for Ger-  
many's failure to prevent volunteers  
entering Upper Silesia.

When the Chamber convened today  
the Silesian situation took prece-  
dence even over the debate on Premier  
Briand's policy which was continued  
from last week. The Galli resolution  
is expected to result in a full discus-  
sion of the recent correspondence be-  
tween the Germans and French gov-  
ernments. The latter twice warned  
the Berlin government that penalties  
would be exacted if the German vol-  
unteers were not prevented from en-  
tering Upper Silesia.

The first note demanded that Ger-  
many close the Silesian frontier and  
prevent traffic in arms. This, the  
Germans replied, they were unable  
to do as they could not prevent the  
Silesian population from acting "as  
it sees fit."

### CHARGE MACHINE GUNS WITH KNIVES

Oppen, Upper Silesia, May 24.—  
Armed only with knives, German  
volunteers succeeded in charging  
Polish machine gun nests last Sat-  
urday, according to accounts of eye-  
witnesses reaching here today. De-  
spite efforts were made to dislodge  
the Poles, and although the invaders

## TWO IMPORTANT BILLS SIGNED BY GOVERNOR TODAY

Geohring Bill Is Given  
Approval—Catlin  
Bill For State Lands  
Also Signed.

Harrisburg, May 24.—An increase  
of 20 per cent. is provided in revisions  
of the Workmen's Compensation  
Act contained in the Geohring  
bill, signed by Governor Sprout today.  
The Catlin bill, providing for the  
acquisition by the state of all land  
desirable for forestry, or for the pro-  
tection and preservation of game  
and fish, is also approved.

Constable Fee Increase Turned Down  
Governor Sprout refused to sign  
the bill increasing the fees of con-  
stables from 50 to 100 per cent. A  
number of other bills were also ve-  
toed.

## LEADERS SPEEDING UP TARIFF BILL

Washington, May 24.—Congress  
leaders are working night and day  
to have the general tariff bill read  
to report out of the House by June 1st.  
The tax revision bill will then remain  
for discussion before Congress meets  
after Washington summer weather.  
However delays seem unavoidable.  
Miscalculations of leaders on a  
speedy passage of the Emergency  
Tariff bill demonstration this. The  
thought it would go through in a  
week. Instead it took two months  
and is now before the President for  
signature.

## SCIENTISTS WILL TRACE RIVER OF DOUBT TO SOURCE

New York, May 24.—The famous  
"River of Doubt" discovered by the  
late Theodore Roosevelt, will be traced  
to its source and mapped by a  
party of scientists sailing here Jun-  
e 1st for a two year expedition into the  
Amazon country of South America.

## BRITISH ORDER DRASTIC MOVE TO STOP RIOTING

Alexandria, Egypt, May 24.—Ma-  
chine guns will be turned on houses  
from which there is sniping, the  
British Commander declared today in  
a proclamation issued. In an effort  
to stop Anti-British rioting curfew  
was enforced last night and soldiers  
patrolled the streets.  
It was officially announced that of  
the 23 killed, none were British sol-  
diers, although there were some British  
soldiers among the 130 wounded.  
The situation was termed quiet this  
morning.

## HAIL DOES BIG DAMAGE TO CROPS NEAR LANCASTER

Lancaster, Pa., May 24.—Damage  
estimated at more than \$100,000 re-  
sulted from hail and wind storms  
that followed the sudden drop in  
temperature last night.  
Wheat, fruit and garden produce  
was leveled by the hail, and several  
barns were struck by lightning.

## MINERS REPLY TO REQUEST FOR A CONFERENCE

Say They Will Abide By  
Agreements Now In  
Force.

### R. S. SOMMERVILLE ISSUES STATEMENT

Says Operators Have  
Treated Miners Fair-  
ly In Past.

Following the receipt of a letter  
from President Sommerville, of the  
Central Coal Operators Association,  
asking for a joint conference of their  
two organizations, John Brophy,  
President District No. 2, United Mine  
Workers of America, has replied as  
follows:

"May 23, 1921.  
Mr. S. J. Sommerville, President,  
Central Coal Association,  
Altoona, Pa.  
Dear Sir:

Your letter of May 9th is  
not any clearer than your first one  
as to just what matters you propose  
to bring before the point conference  
asked for. If your purpose is to ask  
for a reduction in wage scales, as  
is intimated in the various press no-  
tices emanating from Altoona, a  
conference would be useless, because  
the position of District No. 2 is the  
position taken by our national orga-  
nization—that our present contracts  
are binding, that they were estab-  
lished by the United States Bitu-  
minous Coal Commission acting for  
government, and that they must con-  
tinue until March 31st, 1922.

Very truly yours,  
JOHN BROPHY,  
President District No. 2,  
United Mine Workers of America."

Mr. Sommerville Makes A Statement.  
In reply to Mr. Brophy's letter,  
Mr. Sommerville, through the Sec-  
retary of the Central Pennsylvania  
Coal Association, Tuesday stated  
that "During the past five years op-  
erators have granted the miners' re-  
quests in Central Pennsylvania joint  
conferences at which large wage in-  
creases were granted during the con-  
tract period. A wage increase was  
granted April 1, 1917, also November  
1, 1917, and on December 1, 1919,  
the United Mine Workers, after be-  
ing a conference, arbitrarily declar-  
ed the contract at an end and came  
out on strike, which was followed  
by the appointment by the President  
of the United States Bituminous Coal  
Commission, which granted another  
large wage increase."  
"The courtesies," Mr. Sommer-  
ville's reply added, "extended by the  
operators to the mine workers dur-

bachelor tax. Neither will he be  
married to escape the tax. But he'll

## WHITE MAN LASHED BY ANGRY MOB OF SOUTHERNERS

Dallas, Texas, May 24.—A mob  
here early today avenged an alleged  
insult to a 12 year old white girl  
when John Moore, white, well dressed,  
was taken to a secluded spot in  
the country by ten masked men and  
given 25 lashes with a blacksnake  
whip. He was charged with having  
enticed the girl to his room at a hotel.  
Moore's silk shirt was stripped from  
his shoulders, he was tied to a  
whipping post, and severely beaten.

## JUDGE BELL HANDS OUT \$5100 IN FINES AND JAIL TERMS OF THIRTY THREE MONTHS IN LIQUOR CASES

Fifteen Booze Handlers  
Face Court Monday  
Afternoon.

### J. S. SOMMERVILLE GET A \$500 FINE

Some Jail Terms Are  
Suspended Providing  
Fines Paid.

We are told there was "balm in  
Gilead," we are taught to believe  
there is a haven of rest for the wea-  
ry, and that while the lamp holds  
out to burn the vilest sinner, may fi-  
nally get under the wire with the  
meek and lowly, but we want to vo-  
ciferate right here and now that  
there was absolutely no quarter for  
bootleggers, either manufacturer or  
retailer, in Judge Bell's Court Mon-  
day afternoon.

Clearfield county authorities have  
been making life a burden for the  
illegal liquor dispenser the past year,  
and Judge Bell, District Attorney  
Arnold, Sheriff Gorman and Deputy  
Sheriff Gilliland are certainly to be  
congratulated upon the success of  
their efforts.

During the last six months especial  
activity on the part of the District  
Attorney and Sheriff has resulted in  
scores of bootleggers being brought  
to justice and it is getting to the  
point now in Clearfield county where  
illicit liquor making or dispensing  
may be safely classed with the really  
hazardous occupations.

## FANS PREPARE FOR MEMORIAL DAY FIELD MEET

Clearfield Believed To  
Have Inside Track  
On Silver Cup For  
Winners.

By VAN.

High School athletes and their fol-  
lowers, both fair and otherwise,  
throughout this section of the state,  
are looking forward with interest to  
the Clearfield High School Field and  
Track meet to be held here next  
Monday, Decoration Day. With the  
cinder path at the Driving Park in  
first class shape, the runners with  
their spikes sharpened up and their  
muscles loosened by the intensive  
training during the past few weeks,  
Clearfield rooters expect to see some  
fast action when the starter's pistol  
begins to pop.

The meet, which is to determine  
the High School championship of this  
section of the state, promises to be  
well attended. The following schools  
have been invited to take part: Wil-  
liamsport, Johnstown, Punxsutaw-  
ney, Brookville, DuBois, Reynolds-  
ville, New Bethlehem, Curwensville,  
Philipsburg, Mahaffey, Osceola and  
Tyrone.

Locals Favorites.

With her recent successes at Penn  
and State, Clearfield looks to have  
the edge on her opponents, with  
Johnstown as the nearest competitor  
for the big silver loving cup which  
will be awarded to the team scoring  
the highest number of points.

Events to be included on the day's  
program are:  
100 yard dash, 220 yard dash, 440  
yard dash, 880 yard run, mile run,  
2 mile run, 100 yard hurdles, 220  
yard hurdles, mile relay, hammer  
throw, shot put, discus throw, high  
jump, broad jump and pole vault.

Prizes to Winners.  
In addition to the silver cup for  
the winning team, a gold watch, a 15  
jewel Waltham, will be given to the  
high point man.

15 gold medals go to the winners  
of individual events and 15 sterling  
and bronze medals go to the holders  
of second and third place respective-  
ly.

The entire lot, with the exception  
of the silver loving cup, is on dis-  
play in Sheeder's Music Store.

## DOES PROHIBITION PROHIBIT?

The above photograph of impromptu liquor producing  
machinery, on display in Sheriff Gorman's office, shows  
to what lengths local distillers of the illicit have gone  
in the manufacture of hooch. The still on the extreme  
right is one captured in Lawrence Township recently.

When court opened yesterday af-  
ternoon no less than twenty self-con-  
fessed violators of the liquor law  
were "on the carpet" for sentence  
and the entire afternoon was taken  
up with hearing the extent of their  
violations. Fifteen had been run  
through the mill when adjournment  
time was reached.

The prosecutions leading to the  
confession of guilt in each case were

## DUBOIS CANDY MAN DRAWS STIFF FINE

Pleads Guilty To Charge of  
Furnishing Candy Punch  
Boards In Defiance of Law.

About one year ago District At-  
torney Arnold announced that gam-  
bling in any or all of its multifarious  
forms, would not be tolerated any  
more in Clearfield county. The pro-  
clamation was made by and with the  
sanction of Judge Bell, the embargo  
being placed especially on the more  
open forms, such as paddle wheels,  
punch boards, etc., at which the  
young and innocent were liable to  
inveighing.

A fruitful source to this evil was  
the punch boards placed in every  
cross roads store by candy selling  
concerns. The DuBois Candy Com-  
pany were alleged to be responsible  
for a lot of these boards and after  
the prosecution of several offending  
retailers, the candy company was  
notified to cease putting out such  
stuff in Clearfield county.

Some few weeks ago a woman,  
who runs a little place at Falls  
Creek, was arrested for having a  
candy punch board in her place and  
just recently a Rockton store keeper  
was haled into court for the same of-  
fense. Both boards were secured from  
the DuBois Candy Company, and this  
morning President George Mundorf  
of the Candy Company, was before  
the court on a plea of guilty to sup-  
plying these gambling devices and  
was again told to stop putting such  
things out and make this warning  
more impressive and cause it to sink  
in, a \$500 fine and costs were or-  
dered.

## EX-SOLDIER HELD HERE ON FAKE COLLECTION DEAL

Identified As H. L.  
Thompson, Who Mar-  
ried a Girl From Cur-  
wensville.

### SOUGHT FUNDS FOR GOV'T. HOSPITAL

Said To Have Collected  
\$274 Yesterday In  
Philipsburg—Indict-  
ed.

Last evening about 8 o'clock Patrol-  
man Keogh was notified by a couple  
of different people that a young  
man was going about town soliciting  
contributions for the Walter Reed  
Hospital at Washington, D. C. The  
young man gave his name as Thomp-  
son, said his home was in Pittsburgh  
and that he had collected some \$274  
from the good people of Philipsburg  
yesterday.

### SOUNDED FISHY

Knowing the Walter Reed Hospital  
was maintained by the U. S. Govern-  
ment for the treatment of disab-  
led service men, Officer Keogh de-  
cided the solicitor was faking and started  
out at once to look him up. The  
"solicitor" was soon discovered on  
his quest for funds and not being  
able to give a satisfactory account of  
himself was landed in the borough  
lockup.

### TAKEN BEFORE BURGESS

He was taken before Burgess  
Chase this morning for a hearing  
where he was identified as Harry  
L. Thompson, a former member of  
the 18th Regiment, who was with his  
regiment on guard duty in this sec-  
tion just after the declaration of  
war and married a Curwensville girl.  
Thompson served overseas and got  
into difficulties with the army au-  
thorities and was finally imprisoned  
at Fort Jay. The story of his ex-  
periences and adventures were given  
in The Progress at that time. His  
home is now in Pittsburgh, although  
his wife lives in this section.

The case was turned over to Dis-  
trict Attorney Arnold this morning  
and information was made against  
Thompson for soliciting funds for a  
charitable purpose without authori-  
zation and false pretenses. The  
penalty on each charge, if sustained,  
is one year in the county jail.

## LOCAL MEN JOIN ROAD REPAIR GANG

Ten or a dozen local men interest-  
ed in the hunting camps on the  
mountains, went out this morning to  
assist Forester Dague and his crew  
in repairing the "four mile road,"  
which connects the Penfield and Mc-  
George roads. Two days will be given  
to the improving of this road and  
it is expected that an additional crew  
will be out from town tomorrow  
morning.

## BOROUGH EQUITY SUIT POSTPONED

The equity case of Clearfield Bor-  
ough versus Hiram Schiefer, which  
was scheduled for hearing Monday,  
has been postponed for 30 days, in  
order that the engineers in the case  
may have time to check up their re-  
cords and determine the actual lines  
of West Front street at Nichols  
street. Meanwhile the preliminary  
injunction restraining Mr. Schiefer  
from continuing the erection of his  
building at that point.

## DUBOIS GAMBLERS DRAW FINES HERE

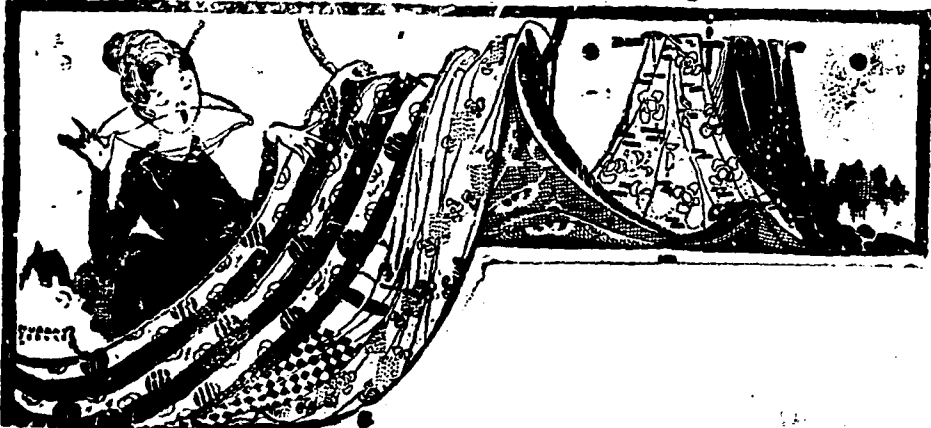

Seven DuBois young men, named  
O'Connell, Davis, Hayes, Kuhn, Hil-  
liard, Bucholtz and Hanson, who  
were caught when the Caramello  
poker joint was raided several weeks  
ago, were each assessed \$20 by  
Judge Bell Monday afternoon.

## CELEBRATED 26TH ANNIVER- SARY

### COURT NOTES

**Fined \$25 And Costs.**

Nick Saher, of Houtzdale, was fined \$25 and costs Monday afternoon for maintaining a public board in his place of business.

Stanley Zeimba and Joseph Grady, niski, were sentenced to Huntingdon Reformatory.

Harry Robinson was sentenced to pay a fine of \$500 and costs and three months in jail, with the proviso that the jail sentence would be remitted upon the payment of the fine and costs.

Lewis S. Frank, of DuBois who entered a plea of guilty to larceny of valuables and money from the Adams Express Company, was sentenced Monday to an indeterminate term in the Huntingdon Reformatory. His brother, Samuel Frank, mixed up in the same case, was paroled in the custody of W. J. Leavy.

## FIRST OF GERMAN WAR CRIMINALS MAY GO TO JAIL

Leipzig, Germany, May 24.—The first of the German war criminals will be convicted. It is predicted that Sergeant Heinen, first of the "little list" to be tried, will be sentenced to not less than two years' imprisonment for brutal treatment of war prisoners under his charge.

The British consider that he was given every chance to turn the court in his favor, but turned the court against him by his childish exhibition. Eight British soldiers, prisoners under Heinen, told tales of brutalities. They said Heinen beat them with his fists, or his rifle butt.

# DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt  
this splendid health habit.

Says a glass of hot water with a teaspoonful of  
limestone phosphate in it washes poisons  
from system, and makes one feel  
clean, sweet and fresh.

Why is man and woman, half  
the time, feeling nervous, despondent,  
worried; some days head-  
achy, dull and unstrung; some  
days really incapacitated by ill-  
ness.

If we all would practice the  
drinking of phosphate hot water  
before breakfast, what a gratifying  
change would take place. In-  
stead of thousands of half-sick,  
anemic-looking souls with pasty,  
muddy complexions we should see  
crowds of happy, healthy, rosy-  
checked people everywhere. The  
reason is that the human system  
does not rid itself each day of all  
the waste it accumulates under  
our present mode of living. For  
every ounce of food and drink  
taken into the system nearly an  
ounce of waste material must be  
eliminated, else it ferments and  
forms poisonous poisons in  
the vessels which are absorbed  
into the blood.

Just as necessary as it is to  
clean the pipes from the furnace  
each day, before the fire will burn  
bright and hot, so we must each

morning clear the inside organs  
of the previous day's accumula-  
tion of indigestible waste and  
body toxins. Men and women,  
whether sick or well, are advised  
to drink each morning, before  
breakfast, a glass of real hot  
water with a teaspoonful of lime-  
stone phosphate in it, as a harm-  
less means of washing out of  
the stomach, liver, kidneys and  
bowels the indigestible material,  
waste, sour bile and toxins; thus  
cleansing, sweetening and puri-  
fying the entire alimentary canal  
before putting more food into the  
stomach.

Millions of people who had  
their turn at constipation, bilious  
attacks, acid stomach, sick head-  
aches, rheumatism, lumbago,  
nervous days and sleepless nights  
have become real cranks about  
the morning-inside bath. A  
quarter pound of limestone phos-  
phate will not cost much at the  
drug store, but is sufficient to  
demonstrate to anyone its cleans-  
ing, sweetening and refreshing  
effect upon the system.

**THE PARAMOUNT FIVE.**

I presume the five most important topics of everyday conversation in this country are (1) politics, (2) religion, (3) sports, (4) the movies and (5) money. But I should say that the five things that a man most frequently thinks about are (1) his family, (2) his business or his job, (3) his health, (4) his recreation and (5) his investments. ### THE CARELESS SMOKER

(Apologies to Kipling)

In view of the forest fires started in six or eight different points in this region Sunday, following the visits of so many people to the woods the following from the pen of Harry A. Reynolds should serve to make even the careless think:

A fool there was and his pipe he lit (Even as you and I)

On a forest trail where the leaves were fit

To become ablaze from the smallest bit

Of spark and the fool he furnished it.

The day was windy and dry.

The forest was burned to its very roots,

Even beneath the ground,

With the flowers, the birds and the poor dumb brutes,

Old honky oaks and the tender shoots

Which might have made logs but for such galoots

Allowed to wander 'round.

The lumber jack has now passed on,

His payday comes no more;

And the screech-owl haunts the camp at dawn

Where the cook's tin pan woke the men of brown.

But the mill is silent, the trees are gone,

The soil and the forest floor.

A deadly sight are those hills of rocks

Which once were beds of green.

No hope for the human, no food for the flocks,

The floods must be held by expensive locks

And the harbor is silted to the docks.

The ships no more are seen.

But the fool smokes on in the forest still,

Leaves campfires burning, too,

While the patient public pays the bill

And the nation's wealth is destroyed for nil.

If the law doesn't get him, Old Satan will,

When his smoking days are thru."

Dr. William E. Mosher, of the New York Bureau of Municipal Research, has figured out that it costs a man \$1,052.63, a woman \$1,118.08, and a family of five \$2,295.55 a year to maintain the American standard of living on a minimum health and decency level. We would like to know how the learned doctor does his figuring. According to his calculations the total cost of Pa and Ma's upkeep is \$2,211.76, and as he allows \$150 for rent, where does the expense incident to the rearing of little Jimmie, Susie and Billie come in?

### JUDGE BELL HANDS OUT \$5100 IN FINES

(Continued from Page One)

of Sheriff Gorman no less than twelve illicit stills which he seized on informations prepared by District Attorney Arnold, from investigations begun by his office or on information supplied by private citizens interested in seeing the liquor laws rigidly enforced. A picture of six or seven of these captured stills is presented herewith.

During the afternoon eleven of the twenty were sentenced to pay fines the maximum of which aggregated \$5,100, while the maximum jail sentences imposed totaled thirty-three months. These totals were reduced materially in some cases provided conditions accompanying the sentence were met, such conditions being graduated according to the heinousness of the violations of the law.

The Fines and Sentences.

Following is the disposition of the cases passed upon:

Frank Rolley, a Leontes Mills merchant, who had been selling Horke Vino and Jamaica Ginger, got \$500 fine and 3 months in jail, but was allowed a parole on the payment of \$400 fine and the costs.

Similar doses were handed out to Mike Kalowash and Mike Bolenti who also ran little stores in the Bald Hill country. They had also been selling "Horke" and "Jakey."

Harold Davis, of Houtzdale, was fined \$500 and three months in jail, with privilege of parole after serving ten days on the payment of \$100 and the costs.

Sherman Daugherty, of Coalport, a "regular" bootlegger, was given a \$500 fine and three months in jail. At the end of the three months he may regain his liberty by paying \$100 and the costs, which in each case amounted to \$25.00.

Andy Tuxomas and Mike Chesick, who run little stores in Morann, and had been selling "Horke" and "Jakey," each were given \$500 fine and costs, with the provision that further sentence would be remitted upon their each paying \$100 fine and the costs.

Dean Younglin, of Coalport, who steered a few fellows to a place where they could get it, was given \$500 fine and three months in jail, with the provision that upon pay-

ment of \$50 and costs he might escape the remainder of the penalty. Ernest Spangle, of Rosebud, got a similar prescription.

Albert George, of Houtzdale, a clerk for "Big Mary," was styled by the court as "sinning in line of duty" and without extra wage therefor, hence he managed to escape with \$100 fine and the costs.

William Wells, of Coalport, claimed to have violated the law unintentionally and his case was held over until September court, for further investigation.

The same thing was done with Martin Julian, of Madera, in order that certain representations he made might be looked into before sentence was pronounced.

Raymond Caskey, of Blain City, was sentenced to pay \$500 fine and three months in jail on a bootlegging charge, with the proviso that further sentence be suspended on the payment of \$100 and costs.

### GERMANS ACCEPT

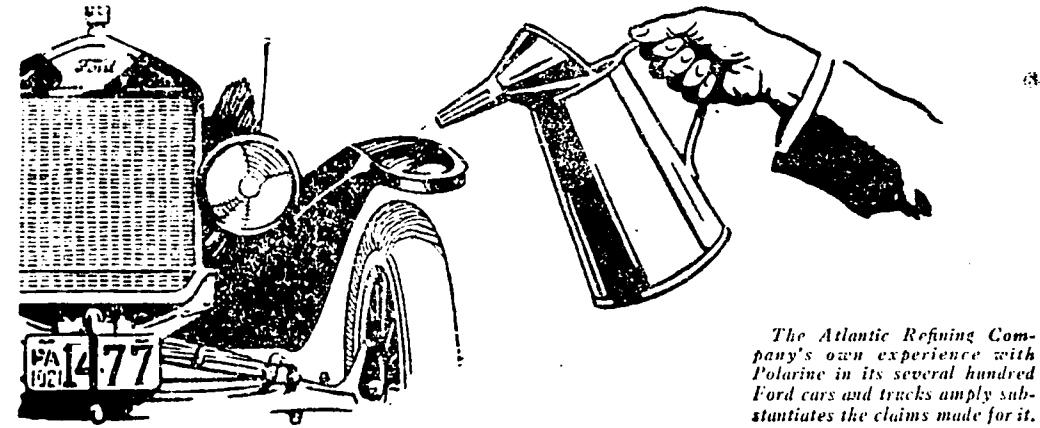

Continued from Page One

lost heavily, they succeeded in driving the Poles from a large area along the Oder river, and captured extensive stores of arms and ammunition.

**DECLARE WAR STORES WERE FRENCH**

The Germans declare they obtained unopened cases of French ammunition. They also charge that some of the guns captured were identified as German weapons which they were compelled to give to the French when disarmed. Rather than feed the prisoners, they were all released after being disarmed, it is said.

In the southern area the Germans obtaining a heavily armoured train, fired from it inflicting heavy damage. As the Poles retreated they placed charges of dynamite under the Los-Law bridge. The German train rumbled through the foothills, and gathering speed dashed across the river bridge, just as the Poles exploded the dynamite. Heavy planks and beams were flung high in the air, but with a tremendous rush the train made a successful crossing and was brought to a stop in the midst of a large land of open-mouthed Poles.

## Your Ford needs Atlantic Polarine

Atlantic Polarine, the year-round medium oil, has the widest temperature range of any oil made!

The hottest-running Ford motor won't break down its heat resistance nor change its "body" beyond the point of efficient cylinder lubrication.

At the same time, Atlantic Polarine can be depended upon to reach and constantly lubricate the cooler high-speed bearings. It flows readily. It will not gum!

Ford owners using Atlantic Polarine will tell you their motors develop more power and run noticeably smoother with this extraordinary oil.

### DECORATION DAY

Monday, May 30, is Decoration Day. It is one day in the year, set aside by Presidential Proclamation, when the nation may officially honor those who fell on the Battle field in defense of Freedom's principles. It is a day when rich and poor alike can bow their heads in tribute to the hero dead.

As the time draws near for the celebration of this solemn occasion one realizes, with hesitation, that the ranks of the Grand Army Veterans are thinning with amazing rapidity. Each year the handful of white haired fighting men grows smaller and smaller. The time will soon come when these grand old Veterans, who upheld the Constitution of our Country in the stormy days of '61 will be too few to accomplish the task of decorating the graves of their comrades, and those who fought in more recent years.

Their mantle of patriotic duty will gradually fall on the shoulders of those who picked up the implements of war in the fight against Spain, and those who engaged in the more recent struggle against the Hun. May they prove as adept in keeping alive the spark of patriotism as the G. A. R.

### IS SOMEONE WORKING A HOAX ON UNCLE SAM?

Washington dispatches carry the report that the clerks of the War Department are busy searching the records to verify a claim of an alleged venerable Indian Scout, who wrote that he was a 130 years old and thought he ought to be getting some salary.

The tale bears all the earmarks of a hoax, although, in truth, it is a sad place and time to play on. The letter to the War Department carried the information that the writer, one "Charley Stepinthumad" an "Ondi and Seneca" Indian had served with General Jackson at the New Orleans engagement, and since that time had, at divers and various times, acted as scout with the armed forces of the country. The letter added that through some unaccountable manner, his name had been left off the pay roll, and that he had never drawn pay. It wound up with the expressed hope that the writer might be given some recompense, or "must I wait another 100 years."

As a result clerks are burrowing through dust encrusted records, it is claimed, unwinding yards and yards of red tape, and from present indications, if "Stepinthumad" lives to be a few years older, some solution may be found.

It appears to be a sad state of affairs. If the story be true, it is eminently so. And if it be a hoax on the part of some western wag, official action should be directed against the party guilty of such a misdemeanor.

There is still a little hope left for some of the staid old citizens who have put off taking a summer trip to their sea-shore haunts for fear their supply of "strong wine that bucks" may be filched in their absence. Under a recent ruling made at the office of Philadelphia Prohibi-

tion Director McKean, persons may legally ship their booze, legally acquired in the days before the "great drought," if it is accompanied by one's furniture.

From all indications freight clerks will be busy for some time figuring out freight rates on furniture, (and some of it in carload lots, at that) to vacation spots. Furniture dealers should also perk up. They might be able to drum up some business along this line.

According to Chicago news reports, a landlord killed himself there the other day the result of worrying over quarrels with his tenants over increased rents. We have heard of increased rents driving the tenants into that frame of mind where self destruction might appeal to them, but this is the first time anyone has put the reverse English on the problem to our knowledge.

Another report from Cincinnati says a landlord, confined to his sickbed, voluntarily reduced rents of apartments under his control. He certainly deserves to recover.

### HIGHEST CAMPUS HONORS FOR 8 STATE JURORS

State College, Pa., May 24.—Eight Juniors at the Pennsylvania State College have received the highest student honor of being elected to the Lion's Paw, senior campus society. The society is composed entirely of seniors, the outgoing class picking their successors near the close of the year. They are:

Harold E. Barron, of Philadelphia. Olympic hurdler and star track man; Robert R. Burtner, of Palmyra, class representative on student council and candidate for senior class president; Lawrence M. Fornero, of Pittsburgh, manager-elect of the football team; John R. Hunter, of Hollidaysburg, pitcher on the baseball team and basketball substitute; Clyde L. Meilinger, of Shippensburg, star pitcher on the varsity nine; Arthur G. Pratt, of Camden, N. J., Editor of the Penn State Collegian; Thomas H. Rittner, of New York City, football, basketball and baseball man; and William W. Ulery, of Bradford, O., first baseman on the nin and star sprinter on the track team.

## THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Apple and pear orchards that have been in with a fair crop should be thoroughly sprayed with arsenate of lead and lime-sulphur solution for early treatment in combating codling moth, apple and pear scab, and the other insect pests and fungous diseases, and later, in July, with Bordeaux mixture and arsenate of lead. Only by thoroughly carrying out the methods which have been developing for years can fruits of high quality and finish, and orchard picks reasonably free from second-class fruit be produced. Every barrel of apples which goes into the cull pile this year from lack of spraying is likely to mean a serious money loss to the grower and will deprive the consumer of a necessary fraction of his supply. Farmer's Bulletins on apple spraying by the Department of Agriculture can be obtained by a postal card request. The same materials, and essentially the same schedule, are used in spraying the pear for its common pests.

## NEW WHEAT VARIETY

YIELDS BIG INCREASE

To the wonderful development of "Penn State Ballhead" cabbage announced a few months ago, the Pennsylvania State College agricultural experiment station has just added to its successful strain projects, "Pennsylvania Forty-four" wheat, a variety that has proved an average of almost five bushels per acre increase over its nearest competitor. The results of eleven year's work that started with the selection of an extra fine single head of Falcaster wheat, closed at the college last week. The average yield of the new wheat variety for the seven years

that comparative experiments were conducted, is 35.3 bushels per acre as against 31.8 for Golden Chaff, the next best yielder on the college farm.

Reports that the poultry of Pennsylvania valued at over \$50,000,000 is menaced by wide-spread tuberculosis among hens have caused the State Bureau of Animal Industry to launch a campaign to eradicate the disease.

Pennsylvania will have a good crop of sour cherries even if its yield of sweet cherries was ruined by the frosts at Easter, and in the following weeks. Reports to the State Department of Agriculture indicate the sweet cherries have been pretty well killed in many counties, and that while a tree here and there escaped the crop will be one of the shortest in many years.

## A CHARMING WEDDING

A very charming wedding took place at the home of Mr. and Mrs. S. A. Row, on No. Second street Saturday at twelve o'clock when their daughter Margaret C. became the bride of Mr. Samuel Forcey, the youngest son of H. L. Forcey of this city. Preceding the ceremony a solo "At Dawning", was beautifully rendered by Miss Margaret Betts.

Immediately following the singing the bridal party entered the room to the strains of Lohengrin's wedding march, which was played by Miss Evelyn Smith.

The bride was given in marriage by her father. She wore a white lace dress and tulle veil and carried a shower bouquet of brides' roses.

The Maid of Honor was Miss Evelyn Cramer, of Scottdale, Pa., cousin of the bride. She was dressed in Green Organdie with hat to match and carried pink roses. The best man was Dr. C. B. Forcey, of Ambridge, brother of the groom, and the ribbon bearers were J. Paul Frantz, Jr., and Charles Smith.

The ceremony was performed by the Rev. E. Roy Houser, using the ring ceremony of the Lutheran church. The rooms were beautifully decorated in green and white.

Following a reception and wedding breakfast the happy young couple departed in their car for a tour of Eastern cities. Upon their return they will reside in DuBois where the groom is in business.

The out of town guests were Mrs. A. E. Colegrove, of Cleveland, O.; Mrs. Howard Cramer and daughter Evelyn, of Scottdale, Pa.; Mrs. Llewellyn, of Shamokin, Pa.; Mrs. Frank O'Connell and daughter, Catherine, and Dr. C. B. Forcey and son "Billy" of Ambridge, Pa., and Mr. and Mrs. Geo. L. McCullough of Tyrone, Pa.

## House Built of Compressed Straw.

A house with walls made of compressed straw was erected in the Faubourg de la Chaussee at Montargis, France. The framework of the building and the sides are filled with blocks of tightly compressed straw, which are claimed to be as hard as concrete and just as unflammable. Owing to the lightness of the materials only small foundations are needed and a house of this kind can be built in a month.

## BASEBALL NOTES

The Curwensville American Legion team got so chesty over its recent victories over Linsy's "Wild Cats" that they refused to play the remaining three games of the agreed-upon series, telling the "Wild Cats" to go get a reputation.

Manager Linsenbiger deposited a certified check for \$100 with the Sporting Editor of The Progress for

a three game series with the chesty upriver baseball artists and would like to have the Curwensville manager cover this amount.

The only conditions are that players shall be local men, one game at each of the towns and the place for the deciding one, if necessary, to be agreed upon by the two managers. Let us hear from you, Curwensville.

## AMERICANS NOW FINANCING FOREIGN BUSINESS

By Ralph Ford, United Press Correspondent

Washington, May 24.—Private American investors now are "grubstaking" foreign industry and foreign governments at the rate of \$1,000,000 a day through purchase of bonds, stocks and other securities, according to estimates made by New York bankers which have reached government officials here.

Dollars are flowing abroad in a steady stream in search of hope for large dividends. The stream began immediately after the outbreak of the great war and has continued ever since almost without break. During the last 12 months approximately \$350,000,000 has been loaned to foreign borrowers, despite the nationwide economic depression in the United States.

American dollars are now building docks and packing houses in South America, municipal waterworks and tram lines in cities in Switzerland and other European countries, elevators in Canada, and factories in France. And the dollars that are working abroad are not the dollars of only of American capitalists. In large proportion they were invested only after having been saved from wage and salary envelopes. Through the Edge law the foreign trade and banking corporations now being organized in many parts of the country, every American who can save a dollar is being given the chance to get his opportunity at foreign investment, if he so chooses.

### FORMER CLEARFIELDER DIES IN IDAHO

Jeff Butler, of Mt. Joy, was advised by wire yesterday, of the death of his brother-in-law, Richard M. Reams, which occurred at Buhl, Idaho on Saturday last.

Dick Reams was the son of the late William Reams, of Lawrence township, and grew to manhood in this community. He had been a resident of Buhl for the past fifteen years and was one of the leading business men of that section. His death was due to tuberculosis. He was about 45 years of age and is survived by his widow.

### QUESTION HARVEY'S STATEMENT

Washington, D. C., May 24.—A resolution asking Secretary of State Hughes whether the recent statements of Colonel George Harvey, United States Ambassador to England, regarding America's entrance into the war, were, or had been approved by the State Department, was introduced in the House today.

### CHLOROFORMED AND ROBBED

Chicago, May 24.—Jack Landis, a broker, with offices in Columbus, Pittsburgh, Cincinnati and New York, was chloroformed and robbed here early today of two diamonds, valued at \$3000 and \$46 in cash.

### SAYS BLACK AND TANS TO BLAME

London, May 24.—General Crozier, former commander of the Black and Tans, who policed Ireland, in an article printed in the Daily News today charged Crown forces in Ireland were guilty of murder, arson, looting and terrorism. Crozier has resigned the command.

**Get Back on Right Track.**

No matter how much you patch up a mistake, it won't change its nature! Better right it, and go back to the place where you left the right track! You'll save time, and better still, you'll save heart aches. This is an especially good plan for a class to follow.—Exchange.

**Poetic Inspiration.**

At a reception in London a lady questioned Robert Browning, the poet, as to the meaning of a passage in one of his poems that had long been in dispute. "Upon my word," he said, "I don't know what it means. I advise you to ask the Browning society—they'll tell you all about it." Cardinal Newman, in his old age, frankly admitted that he could not remember what he meant when he penned those famous lines in his "Lead, Kindly Light." "And with the morn, those angel faces smile, which I have loved long since and lost awhile."

ing this time, should be considered by the miners at present."

Mr. Sommerville also stated that "business conditions justify a conference in the mining industry. The cost of living has been materially reduced. Wage scales have been reduced in every other line of industrial activity except coal, that the public expects the coal mining industry to bear its share of the burdens imposed by present economic conditions, that the operators have reduced their margins and many are selling coal below the cost of production. And if," he continued, "a further reduction in the cost of coal to the public is expected by the public, a change in wage rates must be had. If the mine workers refuse to give this consideration, the responsibility must rest with them; if the mine workers refuse to give this consideration, the public should place the responsibility upon them."

**To Remove Scars.**

Scars are difficult to eradicate, but a child or young person often will in time outgrow them. In some cases the scar tissue can be broken down and the appearance very much improved by electrical means. If one will be patient in steaming the scars and massaging regularly with a good cold cream this remedy will be of great help.

**GAINS 22 POUNDS****SOLID WEIGHT**

This Remarkable Gain Made By J. D. Douglas, Gives Proof of the Wonderful Powers of Nerv-Worth as a Strengthening and Builder. Let it Build You Up Before Colder Weather Comes.

"I weighed only 12 pounds after recovering from the 'flu' last year," said J. D. Douglas, Canonburg pike, Ashland. "I had no appetite and was very weak. My wife induced me to try Nerv-Worth, which I did, and the first bottle helped me so much that I bought another, and during this time I

gained 22 pounds. I can cheerfully recommend Nerv-Worth to anyone." There's an example of an actual case, and shows the wonderful strengthening powers of Nerv-Worth, and how quickly it gives results. Everybody needs a tonic in the fall, and the tonic you take should be one that will strengthen you and build you up quickly. Nerv-Worth has been for many years one of the most successful preparations of its kind. It is not an experiment, but a time-tested remedy, and that is what you want. Nerv-Worth is sold and recommended by Stewart's Drug Store.

### HOW MUCH FOOD SHALL WE EAT?

It is safe enough to state that the average adult eats at least one-third more food than he needs and is able to assimilate. The excess of food overtaxes the digestive organs and is thrown off in waste or stored up as excess fat. Fletcher says if we masticate our food twice or three times as long as we do we would eat less, be fully satisfied, feel much more comfortable and eliminate a large percent of illnesses. Such a treatment costs nothing to try, but a little perseverance and stick-to-it-iveness.

We know that there are four things that the food which we eat is to do for us: To generate heat, to keep the body warm, to rebuild and repair its waste tissues, to store up reserve energy for illness or emergency work, and to produce energy to enable us to walk and do all kinds of physical and mental work. Hard, mental labor or hard physical labor uses up more food than the inactive body, but even that needs food to keep it in working order.

A calorie is a measure of heat or energy which a certain amount of food yields when burned in the body. Just as so much gas per cubic foot produces a certain heat or light, so too a definite amount of food gives off so much heat and energy measured in calories when we burn it in our bodies. An active adult needs from three thousand to three thousand seven hundred calories per day to cover all the body needs. Just accept this as we do that it takes two cupfuls of many things to make a pound. Science helps us in finding the calorie value of various kinds of food by giving us the hundred calorie portions of common dishes. For example one small baked apple without sugar yields one hundred calories, one-half a medium-sized grape fruit yields the same, also a large banana, three prunes with a tablespoonful of the juice; two slices, one-fourth inch thick of bread equal the same; one tablespoonful of butter, one cupful of cooked cereal, one tablespoonful of sugar, one-half cupful of whole milk and one-fourth cupful of this cream, cocoa, one-half cupful.

### Embarrassing Moment.

It happened when I made my first visit to my husband's people. My sister-in-law had made some cakes and had several yolks of eggs left and didn't know what she could do with them. I suggested she let me make scrambled eggs like I had seen my mother make, so nice and fluffy. But I put too much flour in the mixture and it came out so hard it was a task to cut through it with a knife.—Chicago American.

### NERVOUS FAINTING SPELLS

Mrs. Werner Tells How They Yield to Lydia E. Pinkham's Vegetable Compound

Camden, N. J.—"Before my baby was born I was run down and weak, had pains in my back and stomach, was very nervous and would have fainting spells. I certainly suffered awfully with those nervous fainting spells. I did not know anyone at times and used to scream. A doctor treated me for the spells but did not seem to do much good. I had taken Lydia E. Pinkham's Vegetable Compound and Liver Pills before so I began taking them again. I soon felt a change and could do my work without pain and was cured of those nervous spells. Now I have a nice fat baby girl and had an easy time at birth, thanks to Lydia E. Pinkham's Vegetable Compound."—Mrs. WILLIAM C. WERNER, 1216 Van Hook St., Camden, N. J.

When a wife finds her energies are flagging, she is weak, nervous, suffers from backache, the "blues" she should build her system up at once by taking that standard woman's medicine, Lydia E. Pinkham's Vegetable Compound, as did Mrs. Werner.  
If there is anything about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass., in regard to your health.
